Empathy Map

SAYS • "I'm not sure which crop suits my land this season." • "I just enter my soil and weather numbers to get a suggestion." • "I'd like a report I can save or show later."	THINKS • Will this really match my soil and climate? • Am I entering the right values in the right units? • How does this compare with going by tradition?
PERSONA FARMER (Primary End User)	
DOES • Enters soil nutrients (N, P, K) and climate readings into the form. • Reviews the predicted crop, confidence score, and details. • Checks past predictions and downloads the PDF report.	FEELS • Uncertain before getting a recommendation. • Reassured when a clear, confident result appears. • In control when reviewing history and past choices.
